## Jockey Camp Mission Statement

Note from creator Frank Lovato Jr:

Jockey Camp is an event that allows me to share my lifetime of experience and knowledge with those who would like to begin a career in horse racing. Jockey Camp is a safe simulation training course (no real horses are used)

My intention is to offer insight, enlighten, not to encourage anyone into any specific career. A majority of the students will already wish to have a career as a jockey or exercise rider. I will make clear the dangers and downfalls of the sport and risks in becoming a jockey.

It is my mission to provide students with many tools that will offer guidance, safety and health tips.

My goal with this event once it is complete, that every student leaves with a much better understanding of the sport of horse racing that will help them with their journey's present and future.

\*Note: We will only be able to allow a select amount of students for this event and if this camp is to over fill, we will use this form to help our selection process. This camp is to offer great insight and offer guidance into the world of horse racing but Jockey Camp and Frank Lovato, Jr. can not responsible for students that are not able to obtain a jockey license from attending this camp
